ABOUT	Christina Gravert is an Associate Professor of Economics at the University of Copenhagen. Her research interests include optimal policy design, nudging and sustainable behavior change. She conducts research in collaboration with public and private institutions in the fields of health behaviour and environmental sustainability. Her focus is on innovating public policy by incorporating insights from behavioral economics and establishing the use of randomized controlled trials for evidence-based decision making. Christina is the Director of the Center for Experimental Economics and the co-founder of Impactually, one of the Nordic's first behavioral insights consultancies.
